GREENWICH VILLAGE★★

The coolest “village” in New York City was once a separate village, hence its name. With the arrival of many artists, painters, writers and poets in the early 1900s, the area acquired a reputation as an enclave of avant-garde and alternative culture and still retains a relaxed, artistic vibe. Bob Dylan was a longtime Village resident, and it was in the Village that Johnny Hallyday met Ralph DiPietro and Joey Gréco, who would play guitar with Joey and the Showmen, in 1964.

EAST VILLAGE★

In the 1950s, the low-rent East Village became a refuge for writers, poets, artists, and students of the famous «Beat Generation». The living conditions were dismal, which was an added attraction for adherents of this countercultural movement. Nowadays, the neighborhood has become gentrified but still possesses a lively bohemian spirit. The many restaurants, trendy cafes, bars and artsy shops on 2nd Avenue and St. Mark's Place offer great opportunities to hang out and do some people-watching.

SOHO★★

Today, SoHo is known as a dynamic neighbourhood with many artists' lofts and art galleries, upscale boutiques and discount stores, and has become one of New York City's most popular shopping areas, especially on

weekends. The name “SoHo” refers to the area being “South of Houston Street”.

LIBERTY ISLAND

STATUE OF LIBERTY★★★

One of the most famous American icons and a symbol of New York City, the Statue of Liberty was a gift from the French people to the people of the United States as a symbol of international friendship, in honor of the Centennial of American

Independence. Unveiled in 1886, Liberty Enlightening the World was made in Paris by the French sculptor Frédéric-Auguste Bartholdi, in collaboration with engineer Alexandre Gustave Eiffel. She stands 46 metres tall and weighs more than 225 tons. Lady Liberty's observation deck offers spectacular views of New York City. It is also possible to climb the stairs to an observation platform in the figure's crown - tickets must be booked in advance. Open daily except December 25, from 9:30 am to 4:30 pm (last entrance is at 3:30 pm).

Note that the ferry for Liberty Island is run by Statue Cruises and leaves from Battery Park. As the same ferry continues on to Ellis Island, it is a good idea to plan to visit both islands on the same day. A New York Water Taxi daytime or night cruise is another great way to enjoy stunning views of the statue and the New York City skyline.
